

Winter Education Series Saint Andrew's Episcopal Church

Religion in the Age of Science

The Reverend David Gunderson
January 19 to February 23, 2012

Thursday evenings at 7:00 PM.

Free and open to the public; all are welcome.

Spend six weeks tackling key questions through a diverse program using a variety of media, texts and facilitated conversations.

Together we will consider:

- ◆ What questions are appropriate to science and what questions are appropriate to religion? How do these modes of inquiry intersect or conflict?
- ◆ What are my questions and how are they answered? What do I need to understand?
- ◆ What is the future of religion in an age of science? How do we recover meaning in religious symbols?
- ◆ What issues face us in the 21st Century?

You are encouraged to come together for the concluding session on February 23rd whether or not you have been able to attend all or just some of the sessions.

Though not required, the Winter Series can be a thoughtful precursor to the "Lenten Enquirers' Class" to be held on Thursday evenings from March 8 through March 29. This 4-week program during Lent will explore the basic framework of Christian beliefs and practice.
